

COMMUNICATION, TEAMWORK AND LEADERSHIP EMPLOYMENT CONCENTRATION

Soft skills are the “people skills” that accompany an individual’s technical skills and knowledge. These skills help distinguish employees in the job market and workplace and are critical to excellence in any field. This skill set includes interpersonal communication skills, the ability to work collaboratively in teams, and strengthened emotional intelligence. Additionally, strong writing, speaking and listening skills, together with enhanced critical thinking skills, allow individuals to excel in personal leadership.
