

PUENTE PROGRAM COMPLETION CERTIFICATE

The Certificate of Achievement of the Puente Program is designed to recognize the accomplishments of students who successfully complete the nationally-recognized Puente Program along with a general education sequence focused on Latinx and Indigenous culture. The mission of the program is to create and foster a culturally-specific community of scholars who learn to leverage their cultural capital while enhancing opportunities for transfer. Students in this program will have increased contact with faculty and counselors who specifically work with the Puente Program, which allows for increased support and transfer guidance. Additionally, Puente cohorts spend additional time with each other, through the Puente course sequence as well as program-wide events, which widens their support system and enhances the familia ethos of the Puente Program as a whole. This program therefore increases transfer opportunities while being mindful of the mission to create community-minded scholars that collectively work to uplift themselves and those around them. By completing this certificate, students will have one year of general education requirements completed, including first-year writing courses, and will have gained cultural competency.
