

FIRST YEAR EXPERIENCE (FYE) PROGRAM

Starting college for the first time? Soar into excellence with the First Year Experience (FYE) Program!

Mt. San Jacinto College's First Year Experience (FYE) Program is designed to ensure all first-time students successfully transition into college life. Join now to start your educational journey and connect with FYE Navigators and staff who can help students like you build a lifelong foundation of success. Students will connect with the college and identify a degree path that leads to faster degree completion or transfer. As a result, students in FYE are more likely to persist to their second year than their fellow peers.

Any first time college student can be part of the FYE program! Previous dual or concurrent enrollment students who took courses through MSJC are welcome to apply.

Students in the FYE program receive the following benefits:

- Early registration
- Summer Bridge
- Pathway Counseling
- Milestones, tracking personal academic and career goals, to help you stay on track
- Pathway and Career Workshops or Events
- Free Academic and Library Support

For more information, visit us at FYE (<http://msjc.edu/fye/>)
